

BP 6010 GOALS AND OBJECTIVES

Student Achievement

The School Board recognizes that the key work of school boards is to establish and promote a clear vision of student achievement as the top priority of the district. Student achievement will be defined by the district and include but not be limited to, assessment results, student attendance and drop-out rates, graduation rates, and percentages of students earning certificates of completion and diplomas.

The School Board recognizes that student achievement cannot occur if students do not regularly attend school. For this reason, the School Board sets a target date of [insert year] to achieve an attendance rate of 95% or better for the district's schools and its students.

Graduation represents the culmination of a student's achievement in the district. The School Board believes that all student have the potential to graduate. The Board sets a target date of [insert year] to achieve a graduation rate of 90% or better for the district's schools and its students.

The superintendent will ensure development and implementation of a comprehensive, collaborative planning process that engages the school community in the district's continuous student achievement improvement program efforts to achieve the district's vision and mission.

The district's program will be consistent with the Alaska Department of Education and Early Development requirements for content standards and high school graduation.

The School Board will, in striving for continuous improvement of student achievement, annually review district and individual school data on student achievement, prioritize, allocate and realign resources as necessary.

The superintendent will develop administrative regulations as needed to implement this policy.
