

BP 6146.6 ELEMENTARY SCHOOL DEVELOPMENTAL PROFILE

The School Board believes that student assessment is one of the tools that may be considered in determining the best educational choices for a student, and that assessment at an early age may be especially beneficial. The Superintendent or designee shall administer to each incoming kindergarten and first grade student a developmental profile which contains indicators of the student's physical well-being and motor development; language and literacy development; personal-social development; thinking and cognitive development; and child background. Child background includes factors affecting a child's school performance such as pre-school experience, whether the child has an individualized education program, and health data.

At the discretion of the Superintendent or designee, a child completing a profile upon entry to kindergarten may not be required to complete an additional profile upon entering first grade.

(cf. 6159 Individualized Education Program)
