

BP 6162.5 STANDARDIZED TESTING

The School Board believes that schools must consider each student as an individual and that testing, by itself, cannot determine the best educational choices for a student.

(cf. 6164.2 - Guidance Services)

Standardized tests are one component to measure student performance related to state standards and often measure only the most commonly tested skills. The results of these tests should not be overly emphasized nor limit curricular options and the richness of district programs. The School Board believes that major conclusions about students and district programs must always be based upon a variety of evaluation measures.

The district shall administer all tests required by state law. When district test scores are published, the Superintendent or designee shall provide supplementary information to interpret the results.

(cf. 6146.3 College and Career Readiness Assessments)

(cf. 6162.8 - Research)
