

BP 6164.5 STUDENT STUDY TEAMS

The School Board encourages the cooperation of the parent/guardian, classroom teacher, resource personnel and administrators in studying the needs of students having academic, attendance or behavioral difficulties and in identifying strategies and programs that may resolve or alleviate these difficulties.

The Superintendent or designee may establish student study teams that address the needs of individual students by investigating the problems of disruptive students and developing plans to modify their behavior. The School Board expects that student study teams will improve communications within the school and support teachers in working with the student.

Student study teams may recommend transferring the student to another school only when the study team's investigation indicates that a different placement would result in more cooperative behavior without endangering employees or other students.
