

BP 6182 CORRESPONDENCE STUDY PROGRAM

The School Board recognizes that some students may benefit from an educational program other than the regular school program. The Superintendent or designee may approve participation in a correspondence study program when a student's needs can be best met outside of regular classroom instruction and an educational plan for such study is agreed upon and approved by the student's parent/guardian. If the student desires to enroll in a correspondence program offered by the state or another school district in Alaska, a cooperative arrangement will be entered into as required by law.
