

BP 3580 DISTRICT RECORDS

School district records shall be developed, maintained and disposed of according to the requirements of federal and state laws and regulations. Records, regardless of format, should remain accessible and durable for their prescribed retention period. Electronic records, including email, should be administered under operating policies and procedures, ideally in an unaltered format, to ensure that the records remain authentic and trustworthy for their full retention period.

The Superintendent or designee shall undertake the preservation and retention of records and data, including electronically stored information, when there becomes a likelihood that potential litigation will occur.

Irreplaceable, vital school district records must be protected against destruction in the event of a fire, flood, earthquake, terrorist act or other disaster. Vital records are those containing critical information essential to the continuity of operations, or the protection of the rights and interests of the school district, its students, and staff. The Superintendent or designee shall identify vital records and implement measures to ensure that these documents are preserved.

The School Board authorizes the destruction of records having no legal or administrative value or historical interest, following retention for those periods described in the records retention schedule.

The Superintendent or designee shall establish administrative regulations in accordance with AS 40.21.070 so that district personnel will know how district records are to be maintained or destroyed. The regulations shall include retention periods for district records, as appropriate to the record involved.
